

We are now vaccinating our Group 3 population to protect against Covid-19

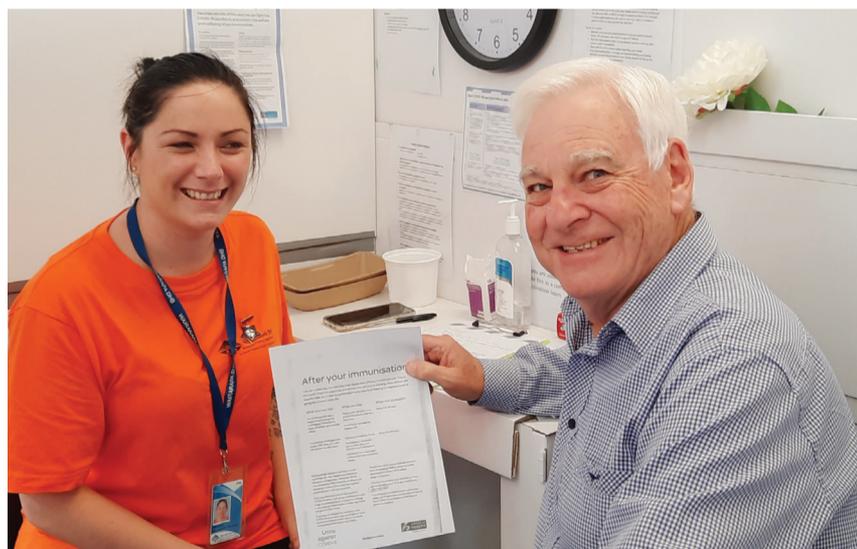

You are part of this group if you:

- are over 65
- have a relevant underlying health condition (visit [covid19.govt.nz](https://www.covid19.govt.nz) for more details)
- are pregnant
- have a disability

We will contact you directly when it is your turn to book an appointment.

There are 20,000 people in Group 3 in Wairarapa and, while we are working as fast as we can, we simply can't vaccinate everyone all at once. You will be invited directly, over time, by text, email or letter and given clear instructions how to book your vaccination.

The Covid-19 vaccine protects us, and everyone around us. Protect Wairarapa by booking your vaccination as soon as you receive your personal invitation.

Sir Paul Collins, Wairarapa DHB Board Chair

Visit www.VaccinateGreaterWellington.nz to find out more or call the Covid-19 Healthline for free on **0800 358 5453**.

Want to be involved in the vaccination programme?

Wairarapa's Covid-19 vaccination programme relies on a strong team, including vaccinators and administrators. If you are a great communicator, enjoy a collaborative environment, and would like to talk to us about joining the team, go to our recruitment website

www.wairarapadhbjobs.org.nz and apply.

Wairarapa DHB is prepared for the NZNO nurses strike Wednesday 9 June

The strike is planned for Wednesday 9 June between 11am and 7pm, and involves DHB nursing staff and healthcare assistants. It does not affect GPs or medical practice staff.

Some clinical services will be unavailable during the strike, including

- Outpatient clinics
- Elective surgery
- Day procedures unit
- COVID-19 vaccination clinic.

Some patients who have treatment booked during the strike action have been rescheduled.

We are supporting our staff, patients and their families during the strike and contingency plans are in place to help maintain essential services on the day.

Please remember to keep ED free for emergencies, especially during the strike. People requiring non-urgent healthcare should contact their medical centre or call Healthline on 0800 611 116.
