8 October 2019

Old hospital building demolition project is underway

Safety fencing around the old Masterton hospital site has started going up this week ahead of building demolition.

About 1400 metres of fencing will go up over the next month.

From late October, Hospital Drive will no longer provide vehicle thoroughfare between Blair Street and Colombo Road. A fence will block the road between the DHB management building and Masterton Medical.

Patients visiting Masterton Medical and the Wairarapa After Hours service need to use the Colombo Road entrance. Access to the hospital and DHB buildings is from Te Ore Ore Road and Blair Street.

Public parking areas are not affected.

Land Information New Zealand owns and manages the old hospital buildings and is carrying out the work on the site.
