Media Statement

Health and Disability Sector Reform announcement

The Government’s announcement outlines how our future health services will be delivered. It aims to consolidate the health system, and describes how that system will function nationally, regionally and at a local level.

While we work with the Government to understand, design and implement these changes, our continued focus on quality care and support for our community remains our absolute priority.

We will ensure continuity of care and service and we will support our highly valued staff and healthcare partners, and our community, as we work towards a stronger health and disability system.

It will take time to transition towards the new structure and, in the meantime, our commitment to improved services and equitable outcomes of care for our Wairarapa population is central to all that we do.

Attribute to Dale Oliff, Chief Executive
